Executive Director -Training & Education Division

OSHAssociation UK

“A complete suite of health, safety and environmental qualifications”

About the OSHAssociation UK

OSHAssociation UK is a training and certification division of Occupational Safety and Health Association United Kingdom (OSHAssociation UK), delivering Professional Continuing Development (PCD) Training Programmes based on international best practice.

When you make the choice to complete a training programme with OSHAssociation UK, you will be learning in an environment which focuses on risk minimisation, innovation and best practice.

The OSHAssociation UK has earned a reputation within Occupational Safety and Health for excellence. We are the preferred training provider for many major employers for both base and entry level through to higher level training within the workplace.

OSHAssociation UK clients include multinational organisations, law enforcement bodies such as police, government departments and a large number of public and private commercial entities.

“We focus on all aspects of Occupational Safety, Health and Environment”

OSHAssociation UK has been a trusted guide to excellent health, safety and environmental management. We have educated millions of workers and made hundreds of thousands of workplaces safer for everyone. We do this by sharing information, supporting, advising, educating, training and campaigning.

We work with organisations around the world and across all sectors to save lives in the workplace. We understand local cultures, practices and regulations with over three decades of international experience.

Whether you are looking to build a career in Health Safety and Environment or developing your employee's safety skills to ensure compliance, we can deliver a truly global approach on Health and Safety. Contact us to find out how we can help you.

The value of effective health and safety training is clear. By protecting and enhancing the wellbeing of your workforce, you benefit from fewer accidents, protection against fines, claims and damages, more engaged employees, lower absenteeism and an enhanced reputation as a responsible employer.

Why study at the OSHAssociation UK?

- Professionals from any sector are eligible to obtain OSHAssociation UK Qualification/Certificate within their industry.
- Candidates are able to progress through OSHAssociation UK's pathway's to higher level certificates, diplomas, and in some circumstances a bachelor or graduate programme.
- All courses at OSHAssociation UK are accredited and strongly supported by relevant industry globally.
- Our flexible learning approach means candidates can engage in the learning process when it's convenient for them.
- All our courses are taught by leading industry professionals and closely monitored by our course advisory and supervisors.
- Professionals with our certificates are respected and trusted for their competent skills in the industry.

Which Course is Right for You?

We can assess what your priorities are and recommend a training programme that precisely matched to your requirements or position you may be seeking for. The training will be relevant to your sector, keep downtime to a minimum and provide you with the skills and knowledge to have a positive impact on your organisation.

Our training is delivered by highly qualified practitioners who have experience of supporting employers all over the world.

Delivery options

We have a range of flexible delivery options to suit your needs and at your own time by choosing any of the options available for specific qualifications.
